

Fire Safety Managers Course

Two day course

Available at venues across the region, this interactive and interesting comprehensive course covers all aspects of fire safety, experts will instruct delegates in good fire safety practice and management procedures.

Step-by-step training in managers responsibilities under current fire legislation, in particular the Regulatory Reform (Fire Safety) Order 2005 (RRFSO).

Course content:

- Fire extinguishers
- Alarms
- Risk Assessment
- Training
- Legislation

Includes a live fire test demonstration by Lorient which will show two specimen doors - one sealed with fire seals and one unsealed.

Delegates will return to their workplace with increased fire safety knowledge and the confidence to introduce sensible procedures that will protect their premises, business, employees and visitors.

Just a quick note in praise of Simon who delivered the fire training to our staff. We all thoroughly enjoyed his engaging manner and well paced delivery. He spoke not just from experience but with great enthusiasm for his subject. Our staff really enjoyed and gained much benefit from the session, due largely from how he held our attention, by making it relevant and interesting. I have, on occasions, heard people say how boring fire training can be, nobody was bored on that Wednesday!
